

NOTIFICATION

Ref. No. CRSSIET/2026/Acad./1171

Date: 21.09.2026

Subject: Invitation for Feedback on Revised Vision and Mission Statements of all Departments

Recently, the Vision and Mission Statements of all Departments of the Institute were reviewed and modified by the institute.

All stakeholders, including students, alumni, parents, industry representatives, and academic experts are invited to provide their valuable feedback and suggestions on the Vision and Mission Statements of all Departments as enclosed herewith vide Annexure-I.

The feedback may kindly be submitted to the email academics.crssiet@gmail.com latest by 30.09.2026.

Director-Principal
CRSSIET, Jhajjar

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

VISION

To emerge as a leading technical institution nurturing competent, ethical, and innovative professionals for sustainable industrial and societal development.

MISSION

1. To deliver quality technical education with strong fundamentals and meaningful practical exposure for students.
2. To nurture creativity and innovation while developing entrepreneurial skills and problem-solving abilities among students.
3. To create a dynamic learning ecosystem focused on emerging technologies and continuous improvement in teaching practices.
4. To build strong collaborations with stakeholders while promoting professional ethics, transparency, and accountability in all activities.

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

Department of Electrical Engineering

VISION

To emerge as a center of excellence in Electrical Engineering education by developing competent, ethical, innovative, and industry-ready professionals capable of contributing to sustainable technological and industrial development, energy solutions, and societal advancement.

MISSION

1. To provide quality education in Electrical Engineering with strong theoretical foundation, practical competencies, and industry-oriented skills.
2. To foster an academic environment that supports experiential learning, technological adaptability, and continuous professional growth.
3. To strengthen collaboration with industries for societal development while promoting ethical values, environmental consciousness, leadership, and professional responsibility.
4. To encourage analytical thinking, innovation, and entrepreneurship to address contemporary challenges in energy, automation, and emerging electrical systems.

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

Department of Electronics & Communication Engineering

VISION

To develop as a center of excellence in Electronics and Communication Engineering education, fostering competent, ethical, and innovative engineers equipped to drive sustainable technological and societal advancements.

MISSION

1. To provide comprehensive education in Electronics and Communication Engineering with a strong theoretical foundation and hands-on practical experience to prepare students for evolving industry demands.
2. To encourage innovation, creativity, and entrepreneurship in students to solve real-world engineering challenges.
3. To promote continuous learning and the adoption of emerging technologies through dynamic teaching methods.
4. To build strong partnerships with industry, academic institutions, and professional bodies to uphold ethical standards, transparency, and accountability in all activities.

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

Department of Mechanical Engineering

VISION

To develop skilled mechanical engineers with strong technical knowledge, practical abilities, and ethical values, capable of solving real-world problems and contributing to sustainable technological growth.

MISSION

1. To deliver outcome-based mechanical engineering education that integrates core theory with hands-on practice.
2. To develop proficiency in modern engineering tools and industry-oriented competencies.
3. To strengthen industry–institute interaction for experiential learning and employability while promoting ethical responsibility, leadership, and a commitment to sustainable engineering solutions.
4. To foster innovation, entrepreneurship, and effective problem-solving skills.

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

Department of Civil Engineering

VISION

To develop globally competent Civil Engineers with technical excellence, innovative thinking, and ethical values for developing safe, sustainable, and smart infrastructure for society.

MISSION

1. To provide strong academic foundations and hands-on training in Civil Engineering through modern teaching and laboratory practices.
2. To foster creativity, entrepreneurship, and technical innovation for sustainable solutions in infrastructure and environmental development.
3. To nurture professionalism, ethical values, teamwork, and effective communication skills among students.
4. To build meaningful partnerships with industries, research organizations, and society to enhance practical learning, employability, and community service.

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

Department of Computer Science Engineering

VISION

To develop competent, ethical, innovative and industry-ready Computer Science and Engineering professionals equipped with strong technical knowledge, problem-solving abilities and emerging technological skills for sustainable industrial and societal development.

MISSION

1. To provide quality technical education by developing strong foundations in computer science fundamentals and problem-solving through teaching-learning, and practical exposure.
2. To promote continuous learning in emerging technologies by exposing students to current trends, modern computing tools, industry-oriented training, internships and contemporary areas of Computer Science and Engineering.
3. To nurture creativity, innovation and entrepreneurship by encouraging students to undertake real-world projects, and technology-driven initiatives.
4. To strengthen industry and stakeholder collaboration while developing communication skills, teamwork, professional ethics, transparency, accountability and responsible use of technology for the benefit of society.

Ch. Ranbir Singh State Institute of Engineering and Technology

Silani Kesho, Jhajjar

Department of Computer Science Engineering (Artificial Intelligence & Machine Learning)

VISION

To develop competent, ethical, innovative and industry-ready Artificial Intelligence and Machine Learning professionals equipped with strong technical knowledge, problem-solving abilities and emerging technological skills for sustainable industrial and societal development.

MISSION

1. To provide quality technical education by developing strong foundations in programming, mathematics, data science, artificial intelligence and machine learning through teaching- learning, and practical exposure.
2. To promote continuous learning and emerging technologies by exposing students to contemporary areas of artificial intelligence and machine learning tools and technologies through training, internships and practical learning.
3. To nurture creativity, innovation and entrepreneurship by encouraging students to develop intelligent solutions for real-world problems through projects, hackathons, technical competitions and technology-driven initiatives.
4. To strengthen industry and stakeholder collaboration while developing communication skills, teamwork, professional ethics, transparency, accountability and responsible use of artificial intelligence for sustainable industrial and societal development.
